Areas of Expertise: Full-Stack Web Development, RESTful API Design, ERP Integration, Responsive Design, Search Engine Optimization (SEO), Agile / Scrum, Authentication & Authorization, Code Review, Mentorship

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Service Metal Products | St. Louis, MO | 01/2024 – Present

- Architect, develop, and maintain the customer-facing e-commerce portal generating an average of $1.4M in monthly revenue using Python, Django, React, and Next.js.
- Design and implement internal cloud-based web applications integrating with SAP Business One (SAP B1) ERP, including a sales order entry tool that streamlined inside-sales workflows and reduced order processing time.
- Lead data security audits and upgrades across the web application stack, hardening authentication, authorization, and handling of customer and transactional data.
- Design and build RESTful APIs and integrations connecting the e-commerce portal, SAP B1, and internal business systems.
- Translate business and client requests into formal software requirements, delivering reviewed, documented, production-grade code.
- Partner cross-functionally with sales, operations, and IT leadership to execute on roadmap priorities and drive measurable business impact.
- Provide technical direction in complex problem-solving scenarios and mentor engineers through code review and pair programming.
- Onboard and train new team members on internal tools, codebase conventions, and development workflows.

Developer | World Wide Technology | St. Louis, MO | 05/2022 – 03/2023

- Maintained and enhanced legacy web applications supporting enterprise timekeeping and benefit tracking for thousands of employees.
- Configured UKG Kronos Timekeeping to meet evolving HR requirements, translating user stories into production-ready changes.

- Supported and enhanced legacy REST APIs powering critical HR workflows, improving reliability and reducing recurring defects.
- Performed weekly payroll processing audits, identifying and reconciling erroneous data to ensure accurate compensation.
- Collaborated within an Agile team to refine, estimate, and deliver user stories on a consistent sprint cadence.

MII UX/UI Consultant | Movilitas | Columbia, MD | 12/2017 – 05/2022

- Designed, developed, and supported SAP MII web applications tailored to the unique manufacturing processes of enterprise clients.
- Built BLS (Business Logic Services) transactions powering mission-critical manufacturing data processing and integration.
- Developed responsive user interfaces using SAPUI5, HTML5, CSS3, and JavaScript to modernize plant-floor tooling.
- Authored SQL schemas, queries, and stored procedures supporting manufacturing application data requirements.
- Researched emerging web technologies and established internal best practices for SAPUI5 development across the consultancy.
- Delivered executive reporting dashboards and real-time scoreboards providing visibility into manufacturing KPIs.

MII UX/UI Consultant | Seeit Solutions | Arlington Heights, IL | 12/2012 – 12/2017

- Developed and supported SAP MII applications tailored to the manufacturing workflows of industrial clients.
- Built custom BLS transactions to automate complex manufacturing processes and data integrations.
- Engineered responsive interface screens using SAPUI5, Angular, HTML5, CSS, and JavaScript to replace legacy paper-based workflows.
- Designed and implemented SQL tables, queries, and stored procedures backing manufacturing application features.
- Led change management and training sessions to onboard client staff to newly deployed software solutions.

Lead Web Programmer | TriLeaf Designs | St. Louis, MO | 08/2011 – 11/2012

- Promoted to lead position after three months and led the Web Department, coordinating projects across a team of developers and interns.
- Managed website security, hosting, DNS, and databases for the company and its full client portfolio.
- Hand-coded HTML, CSS, JavaScript, and PHP for public-facing websites, landing pages, CMS builds, and email templates.
- Developed and maintained custom WordPress themes and plugins tailored to client requirements.
- Implemented on-page SEO best practices to improve organic search visibility for client sites.

EDUCATION

Bachelor of Science in Computer Information Systems | Lindenwood University | St. Charles, MO | 01/2008 – 12/2011
